PEACE NOW URGED

President Roosevelt Desires That the Warring Nations Come to Terms

CASSINI WILL NOT ADMIT NEED

In a Conference at the White House the President Declares That Russia's Military Position is Now Hopeless and That Further Fighting Can Only Serve to Increase Japan's Demade.

Washington, Special—The President Friday struck a blow for peace in the far East. In a conference at the White House this afternoon with Count Cassini, the Russian ambassador, the President expressed the earnest hope that Russia would forthwith conclude peace with Japan.

Prolongation of the war, he believes, will not result in victory for the Russian arms and can only render more difficult the drafting of a treaty of peace which the Czar as well as the Mikado can sign. The President spoke, he said, as the friend of Russia no less than of Japan, and on behalf not only of the Washington government, but the interest of humanity.

The President informed the ambassador that in expressing hope for an early peace he voiced not only his strong personal sentiments and those of his government, but he believed these were held by all of the powers. His opinion was that it would be a mistake for Russia to continue the war. In addition to the suffering entailed by the naval conflict, he did not believe that Russia has anything to win in prolonging hostilities.

The President did not enter into details, but the personal nature of the conversation and his long acquaintance with Count Cassini enabled him to talk plainly regarding the decisive character of Japan's victories. What Japan's probable peace terms would be, the President was wholly unable to say, but he did not hesitate to express the opinion that difficult as these conditions might prove in the light of such a victory as that gained in the Korean Straits, they would increase in severity with every day that a state of war continued. Unless Russia has substantial hope of administering a decisive defeat to Japan in this war, the President believed it would inure to the interests of the Petersburg government to conclude peace at once.

Having received no word from his government since the annihilation of Rojestvensky's fleet save the brief official dispatches telling of the engagement, Count Cassini was unable to do more than to give the President his own personal opinions on the situation. The ambassador was deeply touched by the sincere cordiality of his reception and the frank and friendly manner in which the President spoke. He could not see, however, that there was anything in the present situation, unfortunate as it undoubtedly was for his government, which necessitated Russia's suing for peace. As to territory, he pointed out that China and not Russia had been the loser, for even Port Arthur was held only under lease.

On the sea Russia had nothing more to lose, he said. It was the ambassador's firm opinion that this was not "the psychological moment" in which to discuss peace with Japan. Whatever might be the ultimate decision of his government, he took the ground that Russia could lose nothing by waiting or by continuing the war on land. There was hope yet of a victory for the Russian arms, it was suggested, and in any event Russia had not yet lost one foot of territory and that there was no Russian frontier endangered.

The ambassador pointed out that there was not the slightest official intimation from any source as to Japan's probable peace terms, and that these demands as stated unofficially were "altogether impossible." If Japan's terms should prove anything like as severe as they have been reported, it was the ambassador's opinion that Russia could advantageously continue the war indefinitely, and eventually win a victory on land. That his government would so decide he did not wish to predict, but at last acounts the Emperor was for a continuation of the war.

Count Cassini will transmit an account of the conference to the Czar.

Telegraphic Briefs.

President Roosevelt was the principal speaker at the unveiling of the General Slocum statue in Brooklyn, and in the course of his address he declared a strong navy was the moral of the Eastern war.

Memorial day was observed in many places, the graves of the Union dead everywhere being decorated.

The program for the opening of the Lewis and Clark Exposition from the White House has been arranged.

The attorney who made an investigation of the disaster in the Leiter mine in Illinois for several foreign governments has made public his report, which scores the mine management, and numerous suits against Leiter will be instituted.

Japan Has Free Hand.

Tokio, By Cable.—With the destruction of Russia's naval power, interest is returning to military operations on land. Togo's victory tremendously alters the military situation and removes all limits of offensive operations against Russia's marine provinces. It is now possible to effectively close Vladivostock, seize Sakhalin, the mouth of the Amur river, Kamchatka, and any point between the Tumen river and the Arctic circle that Japan desires.

EXPOSITION THROWN OPEN

Great Northwestern Show Is Now Open to the Public.

Portland, Ore., Special.—Amidst a scene of festivity and splendor never equalled in the Pacific Northwest, with din and clamor of cheering thousands, accompanied by the booming of artillery, the chiming of bells and the blaring of bands, Portland, made her greatest bow to the world in the formal opening of the Lewis and Clark centennial exposition. The event took place under conditions presaging complete success to this historical commemoration of the blazing trial to "Old Oregon" by Captain Merriwether Lewis and Wm. Clark, who, commissioned by President Jefferson, explored the great Oregon country one hundred years ago.

The celebration was participated in by the President of the United States through his personal representative, Charles W. Fairbanks, representatives of the State and the House of Representatives of the National Congress, of the army and navy, together with the Governors and staffs of the States of California, Idaho, Washington and Oregon and multitudes of people from far and near.

All Portland was decked in her best, business was suspended and the holiday spirit was everywhere in evidence.

The States of Oregon, Washington and Idaho, in which June 1st had been declared a legal holiday in honor of the centennial, sent thousands of visitors. The trains of yesterday brought the vanguards of the excursionists and the railroads and boat lines entering Portland have been taxed to their utmost. Never in the history of Portland has this city been called upon to care for so many people.

President's Southern Trip.

Washington, Special—It is announced at the White House that President Roosevelt will start on his Southern trip on the night of October 17. It is also stated that the extraordinary session of Congress will not begin until after the November elections.

The Southern trip will consume about two weeks. The itinerary has not been arranged, but the President's intention is to visit many important cities, including Richmond, Raleigh, Charlotte, Jacksonville and perhaps Tampa, Birmingham, Tuskegee, Montgomery, Mobile, New Orleans and Little Rock, the trip to end at Little Rock and the President and party will return directly to Washington. It is likely that some other cities will be included in the stops made by the President. The length of the stops at each place have not been determined, but will be governed by the necessary arrangements to be made hereafter.

A delegation from Charlotte called on the President recently to urge him to spend a day in that city. He told the callers that so long as a stop will not be possible, he promised to extend his cordial greetings to the people of Charlotte.

The delegation was headed by Mayor McNinch and included Daniel A. Tompkins, R. M. Miller, Jr., B. D. Heath, George Stephens, T. S. Franklin, Heriot Clarkson and G. C. Huntington.

Killed on Excursion.

Goldsboro, Special.—A colored excursion from Washington, N. C., arrived here Friday. When near Parmele, two negroes became involved in a dispute over a woman, and one of them drew a pistol and shot the other in the breast, killing him instantly. The slayer then jumped from the train and escaped. The remains of the dead man were left at Parmele.

News of the Day.

In a duel between two Italian army officers one was transfixed by a sword and almost immediately killed.

Rt. Hon. William Court Grelly, Speaker of the House of Commons, has resigned owing to bad health.

The Canal Commission has been compelled to accept the Attorney General's decision that the eight-hour day applies to Panama.

Nicholas Biddle was a witness regarding Mr. Loomis' connection with the Mercador claim in Venezuela.

Chicago spent a quiet Memorial Day, but more rioting is feared when the sash and door factories undertake to make deliveries.

The two officers deposed by Mayor Weaver informed the latter that they would drop injunction proceedings.

The Frick investigating committee is expected to submit its report at the meeting of the directors of the Equitable Life Assurance Society.

Emperor William of Germany closed the Riechstag.

George E. Lorenz turned State's evidence in the postal conspiracy case against William G. Crawford.

An anarchist threw a bomb at the carriage in which King Alfonso and President Loubet were returning from the opera at Paris.

The crush of titled guests to attend the royal wedding at Berlin is very great.

The President announced that he had selected Mr. Charles J. Bonaparte to be Secretary of the Navy to succeed Secretary Paul Morton.

Congressman Mudd is striving to have Baltimore designated as a purchasing station for Panama canal supplies.

ANTI-WAR MEETING

Russian Citizens Met to Protest Against Further Slaughter

RIOTING NEAR THE CZAR'S PALACE

Demonstration by 5,000 Persons at a Summer Resort Near St. Petersburg Is Interrupted by Police and Troops, the People Defending Themselves With Chairs and Sticks.

St. Petersburg, By Cable.—At a great demonstration Sunday evening in the Povlovsk Gardens, near Tsakro-Selo, the five thousand persons present clamored for a funeral march in memory of the Russian sailors who had lost their lives in the naval disaster in the Sea of Japan. The members of the orcestra became alarmed and fled from the platform, when M. Novikoff, former mayor of Baku, arose and said:

"Let us all by rising show respect for the victims. Down with the war. We have had enough of blood."

Some eighty policemen entered from either side of the hall and elbowed their way through the crowd towards M. Novikoff, whereupon cries were raised of "Let us attack the police." Chairs were seized and hurled at the police, the crowd being led by a colonel with a drawn sword. The policemen fled precipitately.

Order being restored, a number of speeches were delivered on the national crisis. Suddenly the police, re-enforced to between 200 and 300, again invaded the hall and rushed on the audience with drawn swords. The people defended themselves with chairs and sticks, but after ten minutes were driven from the hall into the garden, where there was a battalion of soldiers, who raised their rifles to their shoulders, preliminary to an order to fire, causing a panic. The public fled toward the exits, and finding them closed, smashed the doors and windows of the hall and so gained the street. Many persons were injured, some so seriously that they had to be taken to a hospital.

M. Novikoff was arrested and the gardens were occupied by police and Cossacks. A strong military force was placed on the road leading from Pavlovsk to Tsarkoe-Selo and to St. Petersburg and at the railway stations. People returning to St. Petersburg from the gardens spread accounts of the affair, which soon became a general topic.

Pavlovsk is 19 miles from St. Petersburg and is a summer resort for inhabitants of the capital.

Called on Gov.-Gen. Wright.

Manila, By Cable.—Rear Admiral Enquist, accompanied by Rear Admiral Train and the French Consul, formally called on Governor General Wright Monday. After the usual greetings had been exchanged, Governor Wright asked:

"Do you wish to stay at Manila permanently?"

Rear Admiral Enquist replied:

"My ships are unseaworthy. I have not heard from my government, and I request time to make repairs."

Governor Wright then said that according to his construction of the neutrality laws, the Russian vessels could remain long enough to make necessary repairs, and after these were finished, they must leave within twenty-four hours or dismantle and interne. Rear Admiral Enquist requested permission to bring his ships behing the breakwater for repairs. This request was granted him, and the ships will move Tuesday morning.

Narita Goro, Japanese, cunsul, called on Governor Wright just before Rear Admiral Enquist called and made inquiry regarding the probable disposition of the Russian warships. Upon leaving, Goro met Rear Admiral Enquist in the corridor of the Governor's residence and tendered him a profound salutation.

Rear Admiral Enquist and staff then called upon Major General Corbin, to whom Rear Admiral Enquist expressed great gratitude for the hospitality and comfort afforded them and the courtesy with which General Corbin offered the use of the army hospitals, together with surgeons and food for the wounded Russian sailors. General Corbin said:

"Admiral, how many admirals were there in the fight?"

"There were four of us," said the admiral.

Negro Woman an Assassin.

Rockyford, Ga., Special.—Sunday night Joseph Daughtry, a prominent young farmer, was shot through the heart while in his buggy and killed instantly. A negro woman (Caroline Riddy) fired the shot. She escaped. This morning Paul Jones, a negro, was arrested as acessory to the murder. While Jones was being taken to the jail at Statesboro he made an attempt to brain the sheriff with a brick. The sheriff was partly stunned, but succeeded in drawing his pistol and firing. The bullet went through Jones' temple and he was killed instantly.

No Longer Obstructs Navigation.

St. John, N. B., Special.—Word was recived from Edmund Stone, N. B., Sunday night that a portion of the Van Duren Lumber Company's boom in the St. John river, where Canadian and American lumbermen became involved in a clash a week ago, has been taken up and swung in along the Canadian shore, allowing a free passage up and down the river. It is said that the Van Duren Company will anchor the boom so that navigation of the river will not be obstructed.

Conference of Reforms.

Tangier, By Cable.—Mohammed El Torree, the Foreign Minister, on behalf of the Sultan, has invited the representative of the powers to ask for an international conference at Tangier for the purpose of discussing reforms in Morocco. The members of the diplomatic corps have communicated with their respective governments requesting instructions in the premises.

COTTON CROP LETTER

Messrs. Klumpp & Co. Issue Their Regular Report

The following cotton crop letter is furnished by Messrs. W. F. Klumpp & Co.:

The weather conditions the past fortnight have continued unfavorable, and private advices with few exceptions report the crop to be very backward, compared with last season, farmers being unable to work the fields on account of the protracted rains. In the eastern belt, the plant is making better progress than in the central and western belt, but as a rule over the entire region the crop is doing poorly, especially in Alabama, Mississippi and Louisiana, where the plant is badly in the grass, and in Texas and Arkansas, where the outlook in many sections is very discouraging, farmers having been unable to finish planting, and some fields being abandoned on account of wet weather.

The crop is about two weeks later than usual, and considering the reduction in acreage, of about 15., as per our crop letter of the thirteenth ult., the weather conditions of the next thirty days are of greatest importance, as they will throw more light on the chances for a crop in keeping with consumption.

Weather conditions will continue to govern prices for some time to come.

Memorial Exercises at Trinity College

Trinity College, Special.—Trinity College commencement began Sunday morning with services in Craven Memorial Hall in memory of the late Mr. Washington Duke, the benefactor of the institution, these services taking the place of the regular baccalaureate sermon. More than 1,300 students and representative people of Durham assembled in the large hall to hear and attend the services, which were conducted by Dr. J. C. Kilgo, president of the college. An appropriate musical programme was rendered on a magnificent scale by a splendid choir of 25 voices, under the leadership of Mr. A. S. Cheek. On account of the occasion services in the Methodist churches uptown were suspended, the ministers and their congregations uniting in the services here. The graduating class attended in a body, and the remarks of Dr. Kilgo were addressed particularly to them. The address of Dr. Kilgo was a masterful one. Before the address of the principal speaker, Dr. W. P. Few, dean of the faculty, read an appreciation from that body of the work of Mr. Duke.

Big Building Destroyed.

Milwaukee, Wis., Special.—The Milwaukee Exposition Building, occupying a city block, was destroyed by fire Sunday evening. The loss is $300,000; insurance $75,000. The building was in the block bounded by Fifth and Sixth streets, running north and south, and by Cedar and State streets, running east and west. The fire is supposed to have been started from an electric light wire. The blaze originated in the northwest portion of the gallery, just at the time the National Skat Congress completed its afternoon session. At the time the flames broke out there were over 7,500 persons in the building, but all got out in safety.

To Rejair Ships at Manila.

Manila, By Cable.—The naval board which has examined into the condition of the Russian warships here reports that the Oleg will require sixty days, the Aurora thirty days and the Jemtchug seven days to effect repairs. Admiral Enquist has requested permission to repair here, saying that he would be unable to sail except in a smooth sea, on account of his vessels needing patching near the water line. The Japanese consul at Manila called on Governor Wright twice Sunday to make inquiries regarding the disposition of the Russian vessels.

Killed by Train.

Harrisburg, Pa., Special.—John Tittle, a farmer aged 55 years, and his son, James, aged 17 years, were instantly killed, and his daughter, Bertha, aged 13 years, was fatally injured by being struck by an express train on the bridge on the Pennsylvania railroad between Mexico and Port Royal Sunday. Tittle and his children were on their way home from Sunday school at Port Royal.

Boat in Distress.

Shanghai, By Cable.—A Russian torpedo boat which was towed in here Sunday reports that she had been drifting for six days with 180 men on board and water sufficient for only one day left and with very little food. The vessel was damaged forward. The crew has already been transferred to the Russian transport interned at Woosung.

Togo Visits Rojestvensky.

Tokio, By Cable.—Vice Admiral Togo visited Vice Admiral Rojestvensky at the naval hospital at Sasebo Saturday and expressed his sympathy for the Admiral's wounds. He praised the courageous fight of the Russians and expressed the hope that Vice Admiral Rojestvensky would soon be able to return to Russia. Rojestvensky was deeply moved by the admiral's words, and thanked him. He congratulated Japan on the courage and patriotism of her sailors, and said it lessened his regret and the sorrow of defeat to know the high character of the victors.

$200,000 Loss by Lightning.

Chicago, Special.—During a thuderstorm Sunday, three churches were struck by lightning and two of them were destroyed. Several other buildings were struck and damaged. The total loss is $200,000. The two churches destroyed were Unity church in Oak Park, and Sacramento Avenue Methodist Episcopal church. North Englewood Congregational church was damaged. The churches were empty.

ASSAULT ON KING

Spain's Young Monarch Object of Bomb-Thrower's Attack

PRESIDENT AND KING BOTH ESCAPE

As M. Loubet and Alphonso XIII Left an Opera After Midnight This Morning an Anarchist Threw a Bomb at the Royal Carriage With No Other Result Than to Injure Several Bystanders.

Paris, By Cable.—As the King of Spain accompanied by President Loubet, drove away from a gala performance of the opera after midnight an anarchist threw a bomb in the direction of the royal carriage. The projectile struck a soldier belonging to the cuirassier escort, on the shoulder, and then fell to the ground and exploded without injuring his majesty or the President, who continued their drive to the Palais d'Orsay.

Several soldiers of the escort were thrown from their horses and injured, whilst fragments of the bomb struck a number of persons in the crowd.

King Alfonso and President Loubet had been cheered along the entire route to the opera by enthusiastic crowds, the young monarch having completely gained the hearts of the Parisians since his arrival here.

The performance went without a hitch. His majesty chattered gaily with President Loubet during the intermissions, and at the close of the performance the orchestra again played the national hymns of the two countries, and the King and President arose to leave.

They proceeded down the grand staircase and arrived at the gaily illuminated and decorated Place de l'Opere, where the royal carriage awaited them. The King and President took seats side by side and the vehicle started off surrounded by several squadrons of cuirassiers towards the Avenue Opera.

The procession arrived at the end of the Avenue de l'Opera and crossed the Place Theatre Francias, (where were assembled at least 1,500 persons in the Rue de Rohan, a short street forming practically a continuation of the Avenue de l'Opera, right opposite the arched gateway of the Louvre leading to the Place Caroussel. There, just a few yards before reaching the Rue Rivoli, a man sprang forward with his arm raised in the air and before the cordon of police could prevent him, without uttering a word, he threw a projectile in the direction of the royal carriage. The police immediately rushed toward him. At that moment a deafening explosion occurred. Cries from the crowd were heard and a scene of intense excitement began, the crowd surging to and fro. Soldiers were seen to fall, but as the flash from the bomb died out it was observed that the king and the president had not been struck, and their carriage proceeded on its way.

A large number of arrests have been made, including the person who is believed to have thrown the bomb, and three persons suspected of complicity in the plot, as the latter were seen under the archway at the Louvre with a destructive engine a few minutes before the explosion occurred.

The bomb had been thrown with too great force and passed over the royal carriage and struck the shoulder of a cuirassier and then fell to the ground, where it exploded, fragments of it striking the horses of the soldiers, causing them to bolt and throw their riders. Captain Schneider, who was riding at the right side of the carriage, and Captain Garnier, who was on the left, were both killed. Fragments of the bomb also struck five persons—a sergeant, two policemen, a woman, who was seriously injured, and a child, who was struck in the eye. One horse of the escort was killed outright, and six others lay about maimed and bleeding.

Georgia's Reduction.

Atlanta, Ga., Special.—Georgia's cotton acreage has been reduced 13 per cent as compared with last year, and there has been a reduction of a little more than 14 per cent in the amount of fertilizer used under cotton, according to the official report of State Commissioner of Agriculture S. O. Stevens, issued Wednesday. The estimate is based on reports from correspondents in all parts of the State.

Cotton Needs Cultivation.

Washington, Special.—The weekly crop report of the Weather Bureau says:

"Throughout nearly the whole of the cotton belt cotton is much in need of cultivation, and reports af abandoned fields are received from the Carolinas, Georgia, Alabama and Louisiana. Good stands are generally reported, but much planting remains to be done in northern Texas, and planting is unfinished in Arkansas. In southern Texas and in portions of the central and eastern districts the situation is improved, and the crop is doing well in localities. Squares are now forming in the southern portion of the central and eastern districts.

A New Connection.

New York, Special.—The surface lines in this city are operated by the Metropolitan Street Railway Company, which was controlled by the late Wm. C. Whitney and his associates. This company plans to build an extensive sub-way system in competition with the Inter-borough Rapid Transit Company, which operates the existing subway and the Manhattan elevated lines.

NORTH CAROLINA CROP BULLETIN

Weather Conditions [illegible]
Department Observer.

There is increasing diversity in the condition of crops as reported from various sections of North Carolina, but, as a rule, the weather was more favorable for farm work over a large portion of the State than for several weeks. Still rains occurred on the 29, 30 and 31 of May in many central counties, which kept the soil very wet and continued to interrupt farm work. A number of very severe local storms with high winds and hail damaged crops in several counties on May 31, chiefly in Halifax, Sampson, Martin and Craven counties in the eastern district, Scotland, Johnson, Vance, Guilford, and Harnett in the central district, and only Surry and Iredell in the west. Over nearly all the western half of the State, as well as most of the northern and northeastern counties, the week was dry and favorable for work, which progressed vigorously. Many if not most of the fields which have been foul for several weeks were given a thorough cultivation, and crops placed in good condition. On the other hand the temperature conditions have not been favorable for the rapid growth of vegetation. While the average temperature was only slightly below normal, the nights have been quite cool, and unfavorable for both cotton and corn. The day temperatures, while not very high, in connection with more abundant sunshine were more favorable. The coolest days occurred from the 1st to the 4th of June.

Cotton is doing fairly well where it has been kept cultivated; the stands remain good, but growth has been slow on account of the absence of stimulating high temperatures; in the majority of counties where the crop is uncultivated and grassy, and much of it not yet chopped to stands, the condition is poor; nevertheless the condition of cotton is such that a rapid recovery would probably occur with warmer, dry weather. Corn is also improving slowly in growth, but in many counties where originally excellent stands had been secured, the stands are now reported irregular and poor on account of the ravages of cut and bud worms; some farmers are billing corn in the southern portion; the planting of lowlands could be finished with a week or ten days of dry weather. Peanuts are doing well; early planted are being chopped to stands, late planted are coming up slowly. Wheat, oats and rye are ripening rapidly, cutting has begun, and the harvest will be general in a week or so. While in the west reports concerning these crops continue favorable, in the central portion wheat is said to have suffered considerable injury by excessive moisture, which has caused the plants in many fields to fall to the ground before ripening; rust is also reported in many counties, but attacked the crop too late to do material damage. Irish potatoes are giving a poor yield in the eastern portion of the State where digging is under way, but are reported in good condition in the west. Sweet potatoes have all been transplanted and are doing well. Garden vegetables are generally fine. The prospect for apples has diminished on account of blight. Hay making has commenced with indications for a large and excellent crop.

Order to Sons of Veterans.

The following General Order No. 2 has been issued from the headquarters of the North Carolina Division, Department of the Army of Northern Virginia, United Sons of Confederate Veterans, Fayetteville, N. C., June 3, 1905.

"GENERAL ORDER NO. 2."

"It is earnestly hoped that the young men of North Carolina, representing the United Sons of Confederate Veterans in this division, will see to it that the order is duly represented at the annual meeting in Louisville, on June 14-16, 1905, the time set by our fathers, the veterans, for the next annual reunion.

"This order exists to perpetuate memories of a patriotism and devotion to duty, in which our State stands second to none. It is with regret, therefore, that we have to acknowledge a sad lack of interest on the part of the young men in this division, as compared with others about us.

"The safety of our country depends largely upon our young men, native Americans, with patriotism and preparedness; and recent world-events impress this the more upon us; and we know of no better way to inspire our young men than to have them preserve in memory the unsullied record of our veteran fathers.

"We therefore earnestly hope to see the division well represented.

"By order of
"E. R. MacKETHAN,
"Commander N. C. Division
"U. S. C. V.
J. A. MacARTHUR, Adjutant."

Shot Escaped Prisoner.

Winston-Salem, Special.—James Galloway, colored, who was sentenced to the county roads last week for larceny, attempted to make his escape Monday and was shot by one of the guards, Mr. Robert Shore. Nineteen shot took effect in the negro's back and his right side and his condition is regarded as serious. Galloway, when asked why he attempted to escape, replied that he did not know, except that he had decided that road work did not agree with him. His term was four months for larceny and one month for attempting to break out of jail.

Will Contest Lease.

Goldsboro, Special.—At a meeting of magistrates here, resolutions were adopted authorizing the county commissioners to take steps to contest the lease of the Atlantic & North Carolina Company on grounds of non-fulfillment of contract in their refusal to reduce rates. C. T. Foy is credited with being instigator of the movement and it is expected that the old warfare of the lease question has broken out again.

STRIKE CHIEF JAILED

Leader of Chicago Striking Teamsters Taken to Prison

WAS LATER RELEASED ON BOND

President Shea, of the Teamsters' Union Together With President MacGee, of the Truck Drivers' Union, is Taken Into Custody on Indictments Chargaing Conspiracy.

Chicago, Special.—Cornelius P. Shea, president of the International Brotherhood of Teamsters, and leader in the strike which has existed in Chicago for the last two months, was arrested and taken to jail Monday night. With him on the journey from the saloon in which he was arrested to the office of the sheriff, and then to the jail, was Hugh MacGee, president of the Truck Drivers' Union. Both men were taken into custody on capiases issued on indictments charging them with conspiracy, which were voted by the grand jury that adjourned last Saturday night. When arrested, Shea lost his temper completely and denounced the sheriff and all his works in emphatic language. He was told by the sheriff that he would be given all necessary time to procure bondsmen, but that he would be taken to jail at once unless he moderated his manner of talking.

Shea again broke into violent language, and the sheriff, turning to Deputies Honan and Wilson, commanded them to take Shea to jail immediately.

Shea saw that he had gone too far, and attempted to say something to the sheriff but the deputies took him quickly into hall and from there to the street, where they hailed a cab and conveyed him to jail. President MacGee followed in another cab, and in a few minutes the men were inside the jail. Both were searched, according to the usual custom, by Jailer Whitman and were then taken to cells and locked up.

After being a prisoner for a little more than two hours, both Shea and MacGee were released, their attorneys having procured bonds, which were approved by Judge Tuthill.

Vessels Must Leave Manila.

Washington, Special.—Admiral Enquist will not be allowed to repair his ships at Minila. This Government has decided that as the injuries to the vessels were not caused by either sea or storm they will be obliged to refuse permission for the vessels to be repaired there.

Secretary Taft cabled the following instructions to Governor Wright, at Manila, regarding the ships:

"Time cannot be given for the repairs or injuries received in battle. Therefore the vessels cannot be repaired unless interned until the end of hostilities."

Admiral Train has been instructed accordingly. It is stated by Secretary Taft that if the Russian vessels agreed to leave Manila in their present condition they were welcome to do so, but as it did not appear that they had suffered from any damage caused by sea or storm, this Government was obliged to take the position above outlined.

The President's decision regarding the disposition of the Russian vessels at Manila, that they shall interne or put to sea, is, it is said here, in accordance with the best naval opinion and is in pursuit of the policy of strict neutrality followed by the Washington government from the beginning of the war. It is specially declared that there is no intention to show the slightest favoritism in the matter, and everything possible will be done for the comfort of the wounded Russians. The ships, when interned, will of ccurse be allowed to be put in habitable condition, and such repairs as are necessary to keep them afloat will be allowed.

More Headed For Manila.

Hongkong, By Cable.—The steamer Zafirio, which has arrived here from Manila, reports having sighted a Russian volunteer fleet steamer, two supposed torpedo boats and a three-funneled cruiser, accompanied by a deeply-laden transport, Monday morning, in latitude 20.59 north and longitude 115.23 east. The vessels were steering southward.

Matter Rests With Enquist.

St. Petersburg, By Cable.—Both the Foreign Office and the Admiralty say the decision whether to disarm the three Ruasian cruisers at Manila or effect repairs there and endeavor to reach a Russian port, was left in Admiral's Enquist's hands, to determine according to his best judgment. Little doubt was felt that the cruisers would be interned until the end of the war, as before the repairs which Enquist cables are imperative could be effected, a Japanese squadron would be off Corregidor Island, waiting to capture or sink them.

Funds For Kentucy College.

Frankfort, Ky., Special.—Governor Beckham received from Hon. Wm. J. Bryan, of Nebraska, a check for $400 to be paid to the Kentucky Agricultural and Mechanical and Industrial College, and invested. The annual proceeds are to purchase a prize for the best essay discussing the principles of free government. The money is part of a fund of $10,000 left to Mr. Bryan as trustee by the late Philo Sheridan Bennett, of Connecticut, to be distributed among 25 colleges.

POLITICS AND CRIMES.

It is well known by those disposed to seek the truth that no political party has a monopoly of criminals, and no party administration enjoys entire immunity from an occasional spasm of lawlessness. So it has ever been and must ever be, unless human beings reach a higher degree of perfection than has ever yet been attained upon earth. Truth is truth and must not be lost to view even in the heat of discussion.

So far as we have heard no one ever claimed that the Fusion administration of public affairs in North Carolina was perfectly flawless. This much admitted, it is not boastful to state that in many respects the period from 1894 to 1898 was a most propitious and prosperous era in our State's history. The people ruled. If mistakes were made by the people's representatives these could and would have been corrected had the rule of the people continued; but unfortunately there were freebooters so intent upon public plunder that in their passion for power no means was deemed unworthy of their purpose even though carried into effect at the cost of human life. There were big prizes to be taken and the trade of a buccaneer ignores legal and moral ethics, concerning itself only with possibilities of success.

A recently deposed hord of office-hungry adventurers led by that Arch political juggler the Hon. Secret Circular Simmons, swooped down "like a wolf on the fold," and essayed to accomplish by the arts and cunning of jugglery and theft the destruction of majority rule and thereby the people's undoing.

A deep-laid and most diabolical scheme was first to prophesy a general condition of lawlessness as a result of Fusion rule, then to bring about such condition by inciting their henchmen to provoke as many as possible of the opposite party to violence, and failing in this to do violence themselves.

The plan ought not to have succeeded, but the people in the main were honest themselves and could not see how it was possible for men to be so base and so lost to every principle of honesty and truth as to bring about such a condition for the sole and only purpose of gaining political advantage. The charge was made by Simmons and his understrikers that there was a fearful condition of lawlessness in the State, and that the same was due to Fusion rule. The remedy of course was to put him and his gang back in power when peace and tranquility would be restored and maintained under democratic good government.

The people forgot themselves and re-instated the hungry gang, and what is the result? If Democratic papers are to be believed conditions were rarely, if ever so bad in this State as now.

We quote below a few paragraphs in proof of this statement. Hear the Salisbury Sun on the subject of lawlessness, and the farcical conduct of the courts, also the Morning Post and the Charlotte Observer on the feud-Vendetta business. After reading these extracts let your mind revert to a time when it was considered an act of patriotism to kill a negro for daring to register his name as a voter, when men were actually defended by Act of the Legislature for the crime of stealing votes, when red-handed mobs waited with guns on speakers to prevent the truth from being told and were adjudged guilty of no crime. Consider whether the present condition is not due to such high-handed methods.

We quote first from the Salisbury Sun.

"It seems now that all the murderers of Jones at Wilson have managed to escape. And yet the fact remains, that Jones was in his room asleep and a mob of ruffians came to his door, broke it down and murdered him in cold blood. One by one they have slipped the halter, cheating the gallows of what was justly due it. The ghost, however, will not down. The blood of a murdered man goes unaveged and the white wings of justice have been dragged in the mire."

To which the Union Republican adds:

"It has been said that the murderers of Jones gave valuable assistance in the campaign just prior to the murder. Just how much figure this fact cuts with the courts of justice and the officers in that section we do not know, but it is passing strange that none of this mob was punished and no serious attempt was made to bring any of them to justice. This is a sad commentary on the 'good government' regime."

Read the following from the Raleigh Post of May 24:

"RIVAL OF KENTUCKY?"

"Are we, here in North Carolina, where we boast of law abiding citizens—and we have them—to become the rival of Kentuckey in its feudal days, in the vendetta business? God grant that we are not.

In the shooting from ambush of H. Clay Grubb the Charlotte Observer sees signs of a vendetta. Grubb was acquitted in Rowan Superior Court last week of the charge of murdering his brother-in-law, Obe Davis, at Piney Grove church in Davidson County last year. These two men had strong friends and strong enemies, and, the Observer says, were afraid of each other, as well they might have been.

The Observer further says that these men lived in a community of lawless, desperate men, and the killing of Davis, followed by the acquittal of Grubb, is not calculated to promote the peace of mind or give any greater assurance of the safety of life in Boone township. * *

The recent transactions at Piney church and in Rowan Court are quite sure to deepen the vendetta feeling. This is already proven by the event of yesterday morning, which was maifestly the result of a conspiracy. His enemies will get Grubb yet, perhaps in the next attempt, and his friends may then be expected to take reprisals, if they do not begin before he is killed. The situation at this time appears to be as well developed a feud as even Kentucky ever witnessed." * *

LIQUOR VS. SUNDAY-SCHOOLS.

A Sunday's issue of the Raleigh News and Observer (yellowest of the yellows, except when for purposes of intimidation and murder, it dons the traditional red-shirt) contains this screed from the N. C. BAPTIST:

"A Virginia applicant for license to run a liquor still argued that he ought to have a license because he ran a Sunday-School in his still house. That still was not licensed by the judge. And he did right. A dozen Sunday-Schools would not make a liquor still any better. It is poor logic to run an institution that debauches folks and then set up a Sundy-School to try to reclaim a few of them. The two things are diametrically opposed to each other."

What must the N. C. Baptist and other religious papers think of the motives of a dispensary organ who reproduces and lays before his readers such items as the foregoing? Were they to speak or write their estimation of it the verdict would probably be unanimous in pronouncing it a case of the devil rebuking Sin. Such hypocrisy is despicable, and yet there exists in some quarters a morbid appetite for falsehood and inconsistency as well as for sensation and filth, such as this sensation-monger is in the habit of dishing out to its readers, especially on Sundays.

While it is true as stated by the Baptist that "A dozen Sunday-Schools would not make a liquor still any better," or at least could not make it a hloy place, is it not equally true that a big whiskey shop is not a sacred institution, because operated as an adjunct to the church and Sunday-School and championed by church and Sunday-School people? If "it is poor logic to run an institution that debauches folks and then set up a Sunday-School to try and reclaim a few of them," as we admit it is, then by the same token what becomes of the Observer's pet, the Raleigh dispensary, which sells more liquor, makes more money and debauches more people than any dozen distilleries that ever operated in North Carolina?

"WATTS AND WARD LAWS ARE DEAD LETTERS."

As stated in a recent issue of this paper the Democratic machine in this State is much concerned about an issue for the next campaign. They tried to work the negro racket again during the last campaign, but it was no go. It has leaked out that the machine has now decided to make an issue by attacking the Internal Revenue System of the State. But they will have to manufacture another issue, as their own papers have condemned them.

Such Democratic papers as the Charlotte Observer and Wilmington Messenger state that the State officials are doing nothing to break up blind tigers and illicit whiskey business in this State and that the Federal officials are the only officers trying to enforce the law.

Elsewhere in this issue will be found an article from the news columns of the Charlotte Observer stating the awful condition of affairs in Carthage, Moore County. The Charlotte Observer commenting on this editorially says:

"A special from Carthage, Moore County, tells of a stir there over alleged illicit liquor trafic and of efforts United States officials are making to enforce the law. The State authorities, it is added, are doing nothing. Thus the evidence is accumulating that in many sections of North Carolina the Watts and Ward laws are dead-letters."

CAN IT BE A CHANGE OF HEART?

The Raleigh Post says that when Governor Glenn and his party were in Washington last week that they spent a very pleasant half hour at the White House with President Roosevelt and that Governor Glenn told the President that the people of his State were very anxious to meet the President.

Wonders never cease. During the campaign last fall Governor Glenn said on the stump that no self respecting white man in the South could vote for Roosevelt and he was very harsh in his denunciation of the President. Now how could the Governor sit down and talk socially with such a man and invite him to meet the people of his State? Has the Governor had a change of heart, or can it be that he himself did not believe what he told the people about the President last fall, but was only trying to prejudice the voters by his venomous speeches?

THE DISPENSARY A CURSE.

Mr. W. T. Bundick of Virginia Declares That Christians are to Blame for an Awful State of Affairs.

Mr. W. T. Bundick of Virginia, delivered a temperance lecture at the Metropolitan Hall in this City Sunday afternoon. He took for a text St. Matthews XX 11-21: "Render, therefore, unto Caesar the things which are Caesar's and to God the things which are God's."

The service of the government, he declared, is part of the service of God. The lack of practical Christianity in practical politics is rapidly becoming the bane of our government. If our republic ever fails, the fault will be not so much with the ignorant and vicious as with the indifferent, negatively good people, who hold themselves aloof from participation in politics. We can't escape from the responsibility of citizenship.

Speaking of the sources of corruption in political life, bribing, Mr. Bundick characterized the bribe of party fealty as the most dangerous of them all, because the most common "Stand by the party on principle!" he exclaimed, "God save the mark! Though you violate every principle of manhood to do it.'

'Alcohol is king!' declared the speaker. 'There is the naked truth. You are the subjects of a monarch. His popular levy is $1,200,000,000 every year—$14 per capita on every man, woman and child. The church levy is about $150,000,000, schools $175,000,000, bread $300,000,000, meat $900,000,000. All together will barely foot up to the levy of King Alcohol. His tax gatherers are licensed and protected by state and natural laws and take in the tribute over the counters of saloon or dispensary."

At this juncture a gentleman, who was in the audience, interrupted the lecturer and said, pointing through the window to the dispensary:

"Right across the street sits one of those kings, and his name is written across his brow—the angels of the citizens of Raleigh."

"Tbank you," said Mr Bundick.

The speaker explained that it was not alone from the slaves of the king that came, but indirectly from all the citizens for alcohol is the father of crime, disease, want and poverty, the support of our jails, poor-houses, hospitals.

The lecturer put the blame for the present awful state of affairs squarely on the shoulders of the Christians of the land, who could by their united ballots he declared, dethrone the awful tyrant.

"If only the Christian ballots," said he, "were torn from the base of the tyrant's throne, the whole throne would totter and fall at your feet."

Rev. S. J. Betts, followed with a brief address, in which he referred to the local liquor situation somewhat as follows:

Are we to hand out $58,000 every year for laying our streets with inanimate pavement and educating our children. The mortar is compounded of the blood of broken hearts. The very water used is the tears from starved souls.

BLIND TIGERS IN CARTHAGE

STATE AUTHORITIES ALLOW THESE VIOLATORS OF THE LAW UNDISPUTED AUTHORITY.

White Federal Authorities are Busy Arresting and Trying Every Person Under Suspicion.

The following is taken from a special to the Charlotte Observer from Carthage, Moore County:

"The illicit liquor problem has deeply stirred the people of Carthage for the past few weeks. Two weeks ago an anonymous letter in a local paper signed, "a Mother," charged that the town was full of "blind tigers;" that they indiscriminately sold whiskkey to boys and men alike, and that the men of the town were well aware of the existence of such traffic and that he ('A Mother,') did not expect any help from them, etc. The next issue of the paper brought forth a reply to 'A Mother,' from 'Fair Play,' in which he 'resents the gratuitous insult offered our leading men by 'A Mother,' and suggests that there are other fields of endeavor for him. ('A Mother,') 'Fair Play' reminded 'A Mother' that 'a mere assertion carries no weight unsupported by proof,' but 'A Mother' in the last issueof the last issue of the paper challenged 'Fair Play' to meet him, ('A Mother,') at the court-house Thursday during the court recess at which time 'A Mother, asserted he would prove that 'Fair Play' was a liquor seller and a 'blind tiger' or forfeit $25. There was no meeting at the court-house, however. Meantime the Federal authorities here are arresting and trying every person upon whom a suspicion rests. Some are sent on to court, while others are allowed to go because of no evidence. The State authorities allow undisputed priveilege and no cases are brought from that source."

LEASE OF A. & N. C. CONDEMNED.

Board of Commissioners Directed to Investigate Legality of the Lease, and if Possible to Set the Same Aside.

New Bern, N. C.—At a meeting of county commissioners to-day a strong resolution offered by M. D. Lane, of Fort Barnwell, condemning the lease of the Atlantic & North Carolina railroad to the Howland Improvement Company, was carried by an almost unanimous vote. It was directing the board of commisioners to investigate the legality of the lease, and if possible to set the same aside.

Butter Consumed in the United States.

Over one and one-half billion pounds of butter are consumed annually in the United States, according to Clarence B. Lane, of the Dairy Division of the United States Department of Agriculture. Writing in the June Cosmopolitan on "Butter, Cheese and Condensed Milk as Factory Products," Mr. Lane says that factories have now almost wholly transferred the making of butter from the faams. The milk-producers co-operate in organizing, building, equipping and managing the butter factory and disposing of its products. In a factory of this kink all expenses are deducted from the gross receipts of sales and the remainder divided pro rata among the patrons upon the basis of the milk or crerm contributed. The use of machinery and of various testing appliances has quite revolutionized modern dairying. The article is fully illustrated.

Pass a Law!

Newberry, S. C., Herald and News.

Certainly. Pass a law. That is the thing to do. Not only in North Carolina but in South Carolina and in the town of Newberry. If a citizen is trying to do something for himself and is attending to his own business and trying to be progressive stop him—pass a law. Don't encourage him, but stop him—pass a law if you can't do it any other way.

If anything is being done that someone thinks ought not to be done pass a law and stop him. The town or the State might grow.

Seriously, we have too much of "thou shalt not." Why not encourage people to do these things which are good and for the uplifting of humanity and the advancement of the State materially and then there will be no need of so many prohibitives.

The White Brothers in State Prison.

Chalmers L. White and Thomas J. White of Rowan County, were placed in the State's prison yesterday to serve a sentence of six years for the murder of Russell Sherrill in September, 1903. As they were under bond they came to Raleigh a day ahead so as to avoid the trip as prisoners of the sheriff.

FROM OUR EXCHANGES.

Some Squibs of Interest We Have Gathered With Our Paste-Pot and Shears.

During the short administration of Mr. Roosevelt there have been more prosecutions against persons in the employment of the government than had been for many years preceding—and the frauds had been going on for many years. If there could be a little of this kind of work done in the State government it might be well for the State.—North State.

Storm Did Much Damage.

It is reported that the hail storm in Chatham County, near Bynum, last Wednesday evening was the most destructive in the history of that section. The storm was two and a half miles wide. It killed chickens, geese and did much damage to truckers.

After the storm was over men and boys could walk over the fields on ice as in winter. It is also reported from Holly Springs, Wake County, that the hail did much damage to crops.

From Harnett County it is reported that the western section of the county was visited Wednesday afternoon by a most terrific wind and hail storm. In the section about Barclaysville the growing cotton and tobacco was entirely destroyed, and will have to be planted again. At Rawles station, on the Mills road, a small station house was blown across the track for about thirty feet, and was completely demolished. The farmers in that section are reported to have suffered a great loss.

CUT HIS OWN THROAT.

Mr. John Fleppin was the Third Member of this Family to Die in this Manner

Pilot Mountain, N. C., June 6.—A large congregation gathered at the funeral of Mr. John Fleppin ten miles from here Sunday. He cut his throat a few days ago while ploughing corn. His boys found him just as he was dying. The mule was hitched, and the man lay in a puddle of dlood near by.

This is the third member of the family that died with a cut throat, his sister having committed suicide in this manner, and his mother was found dead with her throat cut after being missed for several days.

Progress of the Colored A. & M. College at Greensboro.

The work on the new dormitory of the Colored Agricultural and Mechanical College at Greensboro, is in progress and the College authorities are expecting soon to have another large dormitory added to their equipment. The building will be a three-story brick structure containing forty-eight rooms with steam heat and electric light. The plans for the building were drawn by Prof. Afam Watson, Director of the Mechanical Department, who is himself a graduate of this school. All the work is being done by students.

Believe in Kissing.

Bristol, Va., June 5.—There are ten thousand German Baptists in this city attending the annual conference of the denomination. Today was devoted to devotional service and a discussion of missionary and Sunday-School work, it being shown that the denomination has grown greatly in both.

In a sermon to-day Elder Beahm, of Bridgewater, Va., speaking of the ordinance of kissing observed by the brethren said:

"When we get too proud to kiss each other tothat extent has God gone out of our hearts."

Robbers Entered Seven Residences in Salisbury.

Salisbury, N. C., June 6.—What appears to have been an attempt at wholesale burglary developed here last night. No less than seven homes were attacked near the midnight hour.

The intruders were fired upon at the home of Mr. Guffy and were frightened away at all other places after the bed-rooms had been entered.

DYING OF FAMINE

is, in its torments, like dying of consumption. The progress of consumption, from the beginning to very end, is a long torture, both to yictim and friends. "When I had consumption in its first stage," writes Wm. Myers, of Cearfoss, Md, "after trying different medicines and a good doctor, in vain, I at last took Dr. King's New Discovery, which quickly and perfectly cured me." Prompt relief and sure cure for coughs, colds sore throat, bronchitis, etc. Positively prevents pneumonia. Guaranteed by all Druggists. Price 50c and one $1.00 a bottle. Trial bottle free.

Convulsion, Fits, then Epilepsy.

Dr. Miles' Restorative Nervine has been so successful in curing these brain-wrecking diseases that there is every reason to believe that even the most hopeless cases can be benefited, if not fully restored.

We will be pleased to refer any one thus afflicted to many who now enjoy the blessing of health, after years of hopeless suffering.

"I have a son that had brain fever when two years old, followed by fits of the worst type, and he was pronounced incurable. I spent hundreds of dollars for him, without relief. After about fifteen years he became so bad that we sent him to Longcliff hospital for the insane, at Logansport, Ind. He was there nearly three years, but he continued to grow worse, so we brought him home July 20, 1902, in an awful condition. He had lost his mind almost entirely. He hardly knew one of the family; could not even find his bed; was a total wreck. He had from 5 to 10 fits a day. We were urged to try Dr. Miles' Nervine, and before the first bottle was used, we could see a change for the better. We have given it to him ever since, and he has had but two very light spells since last August, 1903, and then he was not well other ways. We pronounce him cured, as he can work and go anywhere. If any one wishes to ask any questions concerning this, they are at liberty to do so."

H. H. RUNNELL, Lincoln, Ind.

Dr. Miles' Nervine is sold by your druggist, who will guarantee that the first bottle will benefit. If it fails, he will refund your money.

DO YOU GET UP WITH A LAME BACK?

Kidney Trouble Makes You Miserable.

Almost everybody who reads the newspapers is sure to know of the wonderful cures made by Dr. Kilmer's Swamp-Root, the great kidney, liver and bladder remedy.

It is the great medical triumph of the nineteenth century; discovered after years of scientific research by Dr. Kilmer, the eminent kidney and bladder specialist, and is wonderfully successful in promptly curing lame back, uric acid, catarrh of the bladder and Bright's Disease, which is the worst form of kidney trouble.

Dr. Kilmer's **Swamp-Root** is not recommended for everything but if you have kidney, liver or bladder trouble it will be found just the remedy you need. It has been tested in so many ways, in hospital work and in private practice, and has proved so successful in every case that a special arrangement has been made by which all readers of this paper, who have not already tried it, may have a sample bottle sent free by mail, also a book telling more about Swamp-Root, and how to find out if you have kidney or bladder trouble. When writing mention reading this generous offer in this paper and send your address to Dr. Kilmer & Co., Binghamton, N. Y. The regular fifty-cent and one-dollar size bottles are sold by all good druggists. Don't make any mistake, but remember the name, Swamp-Root, Dr. Kilmer's Swamp-Root, and the address, Binghamton, N. Britt Kennedy.

On Thursday, June 1, at 4:30 p. m., Mr. Wentworth T. Britt of Turkey, N. C., was married to Miss Jenie Kennedy the accomplished daughter of Mr. J. T. Kennedy at Moltonville, N. C. The attendants were Mr. J. A. Powell with Miss Gertie Register, Mr. C. S. Parker, with Miss Nellie Pearsall; Mr. W. T. Robinson, with Miss Katie Rackley; J. J. Mathis, with Miss Cornelia Chesnutt.

The ceremony was performed by Rev. C. M. Rock, of Clinton, N. C, in a very pleasant impressive manner.

Immediately after the marriage and congratulations were over, the wedding party drove to Mr. E. T. Britt's the groom's father, where the bride and groom were greeted by the largest gathering of friends and relatives we have seen on such an occasion in a number of years.

The bride and groom were the recipient of a large number of useful, ornamental and beautiful presents.

Soon after we arrived at the hospitable home of Mr. and Mrs. Britt's, supper was announced, and we marched into the dining room, and there we found a table laden down with all that is good and tempting to the appetite. We all stayed until the late hours of the night, joining in merry-making and pleasant conversation.

Our very best wishes for the bride and groom as they launch out on the sea of life. Attendant.

One of the prettiest court houses in the State decorates the town and our County Commissioners who are business men and always alert to the best interest of the county and anxious to beautify the town are now having the court-house square leveled off and made perfectly smooth and at an early day expect to have the same filled with yard grass and we will have a lovely spot of green that the public may enjoy when in the City.

Mr. J. S. Autry, of Autryville, says that General Green and the bugs are having a good time in his part of Dismal and are giving the farmers plenty of work to do. However, Mr. Autry found time to send $1.00 for a years subscription th The Caucasian. We hope others will find time to do the same.

Mr. J. R. Hiatt is erecting a mammoth sales and livery brick building on Lee Street, which is a credit to any town and Clinton is moving right along with Roosevelt prosperity as it should.

You would enjoy a visit to Clinton, Sampson County, now to see the improvements made there in the last year or two.

A Drunken Young Man Shoots a Woman

Don't Neglect Yourself.

1433 Second Street, Louisville, Ky., April 14, 1903.

I have been weak and sickly for the past four years, caused by irregularity and carelessness regarding the laws of health, but about five months ago my condition became very serious. I had severe backache and suffered a constant dull pain in my head. I spent weary, painful days, and miserable, restless nights. The doctor told me that I must have patience.

His medicine did not, however, give me even temporary relief and as I had been told of the curative qualities of Wine of Cardui I decided to try it.

I found that it relieved me of pain. As my general health improved my other troubles were gradually diminished and after five weeks' use of the Wine of Cardui I was once more a well and happy woman.

WINE of CARDUI

Wine of Cardui regulates the menstrual flow, banishes headaches, backaches and bearing-down pains. Severe headaches, bearing-down pains, indigestion, loss of appetite and nervousness are symptoms of female weakness and should be given prompt attention. If you are troubled with menstrual irregularities do not let them run on. They will certainly grow into dangerous and chronic troubles. Get a bottle of Wine of Cardui and begin treatment at once.

All druggists sell $1.00 bottles of Wine of Cardui.

HUGE TASK.

It was a huge task, to undertake the cure of such a bad case of kidney disease, as that of C. F. Collier, of Cherokee, La., but Electric Bitters did it. He writes: "My kidneys were so far gone, I could not sit on a chair without a cushion; and suffered from dreadful backache, and depression. In Electric Bitters, however, I found a cure, and by them was restored to perfect health. I recommend this great tonic medicine to all with weak kidneys, liver or stomach. Guaranteed by all Druggists. Price 50c.

NO SECRET ABOUT IT.

It is no secret, that for Cuts, Burns, Ulcers, Fever Sores, Sore Eyes, Boils, etc, nothing is so effective as Bucklen's Arnica Salve. "It didn't take long to cure a bad sore I had, and it is all O. K. for sore eyes," writes D. L. Gregory, of Hope, Tex. 25c at all drug stores.

ECZEMA PILES, PIMPLES, OLD SORES, Etc. CAN BE CURED AT SMALL COST.—READ THE FOLLOWING LETTER.

The Ec zine Co., Chicago.

Gentlemen—Enclosed find one dollar to pay for another bottle of EC-ZINE and 25 cents for Ec-zine Soap. I have used nearly all the bottle you sent and it has done more for me than all other treatments combined that I have employed for four years. I have Eczema on both legs from ankle to knee and I have been so bad at times I had to go on stilts. Since I commenced the use of EC-ZINE my trouble has nearly disappeared, in fact it feels like it was well, but there are a few rough spots yet I don't want to stop treatment with one bottle. Send me another bottle as soon as possible and a cake of soap, after I use it I expect to be perfectly cured and then I will tell you all about it. I have been under treatment for four years and I can't begin to tell you what I have suffered and the great trouble and expense I have endured in that time, but I have great hopes that I will soon be cured. I certainly believe I have struck the right remedy at last. With best wishes I am

Nerve Fag.

If You Waste Your Nerve Energy, After Awhile You Will Suffer For It.

You can waste nerve force by excess, over-work, worry, anxiety, etc.

You can weaken yourself by not eating proper food or securing sufficient rest to renew the nerve energy you use up.

The proper treatment, in addition to good phosphatic food, such as whole meal bread, prepared cereals, etc., is Dr. Miles' Restorative Nervine.

This is as truly a brain and nerve food as any food you could eat, and besides, furnishes strength and tone of its own, which goes to the weakened nerve system, and sets it to rights.

Dr. Miles' Restorative Nervine is a refreshing, revitalizing tonic food-medicine for the brain and nerves. It reconstructs worn-out nerve tissue, and fills your languid brain with new life and vigor.

Dr. Miles' Nervine has made so many marvelous cures, of people so sick the doctors thought they were incurable, that it is today the standard medicine in many thousands of American homes.

The first bottle is guaranteed to help you, or druggist returns your money.

"The extreme heat, close confinement and intense mental strain incident to the banking business, has caused me to suffer with nervousness and insomnia. It gives me pleasure to say that I have used Dr. Miles' Nervine with very satisfactory results in the treatment of these affections. I am now on my fifth bottle, and eat and sleep well, in fact have almost forgotten that I possess nerves."—H. L. DALBY, Asst. Cashier, State Bank, Texarcana, Ark.

Farming For PROFIT

There is nothing too good for the Farmer; there it nothing too good for the Farm. Good barns, good houses, good wells, good fences, good stock, all on good land, under good management assure good profits. The good applies throughout. It must apply throughout, or it will not apply to profits.

Nowhere is discrimination more necessary than in the selection of fences. The farm must be fenced. Hence, select the best fence, the ELLWOOD FENCE.

The Elwood is built like a bridge—braced, supported, tied; no stronger or more substantial structure possible. Ellwood fences will hold your hogs, cattle, horses, and poultry. Ellwood Fence has always been popular. It answers all purposes and never disappoints.

We have Ellwood Fences for sale, and at prices that will suit you. Come and see us—we have a bargain for you.

Separated 25 Years, Then Wed.

Time nor stern parents could not separate Annie McDonald and David E. Powell forever. They were sweethearts in the mountains of Wales and their love was as lasting as Welsh dialect. Stern parents forbade the wedding and tore them apart, objecting because Annie was then only 17 years old. David in his grief embarked for America and settled down in Pennsylvania. A few years afterward Annie, whose stern parents had died, came to the United States. She knew nothing of David nor he of her—but they never forgot each other. And one day last month they met face to face on Fifth avenue, in Pittsburg, and knew each other, even through the Pittsburg smoke. They arranged matters immediately, took up their courtship where they had left it off on that mountain side in Wales, and he asked her to name the day. She chose the day—the twenty-fifth anniversary of the day on which they would have wed but for her parents—and on that day Annie McDonald finally became Mrs. Powell.

Louis R. Smith Indicted.

Washington, Special.—Louis R. Smith, of North Carolina, formerly an employe of the General Land Office, was indicted by the grand jury of the District of Columbia, on a charge of abstracting and selling thirty land warrants. Smith was employed in the Land Office from July 1, 1901, to July 6, 1904, and it was during this time that the warrantes were taken. He confessed the theft when confronted with the evidence against him. The warrants taken were worth about $5,000.

New Enterprises.

Raleigh, Special.—The State charters the South Atlantic Terminal Company, to construct and operate a railway between some point in New Hanover county and Southport, a distance of 30 miles, of which three miles are in New Hanover and 27 in Brunswick. The capital stock is $150,000, and H. H. Dougherty, of New York city, holds all the shares except five. Another charter is granted the Buck Shoals Company, of Arden, Henderson county, this being granted general privileges, such as building a town, operating factories and manufactories, developing water power, etc., the capital stock being $50,000, J. W. Sluder and others of Asheville, being the stockholders. Charters are granted to two rival Republican papers, both of which, it is said, are to be printed in Greensboro, which is Republican headquarters in North Carolina. One is to be the Industrrial Publishing Company, the name of which was at first The North State, of this the capital stock being $50,000, and among the stockholders being J. M. Millikan, of Greensboro, the largest stockholder, next coming E. C. Duncan, Spencer Adams and Tyre Glenn, each with 110 shares; J. Elwood Cox, A. E. Holton, Hary Skinner, H. C. Dockery and Thomas S. Rollins, with 40 shares each. The other charter is to the Tar Heel Publishing Company, also with $50,000 authorized capital, Spencer Blackburn having 238 shares, and E. A. Miller, H. L. Grant, R. B. Samms, 40 each.

A charter is granted the Greensboro Fire Insurance Company, capital stock $100,000, J. W. Fry and others being the stockholders; also a charter to the Lanier Club, of Tryon, Polk county, which will build a library and establish a circulating library, there being no capital stock, the incorporators being a large number of ladies and gentlemen of that section, and some other towns. Another charter is granted the Pipe-Bending Machine Company, of Charlotte, authorized capital $100,000, J. W. Conway being the principal stockholder.

High Point's Growth.

High Point, Special.—The following is the official report of the buildings erected here the past year and their cost: Dwellings, 194, at a cost of $172,800; stores, 10, at a cost of $30,000; factories, 13, at a cost of $83,000; churches, 3, at a cost of $22,000; hotels, 2, at a cost of $35,000. Total, $342,000, or over one-third of a million dollars invested in buildings here in 12 months. This shows the rapid growth of the town. One of the substantial evidences of growth is that residences alone are not built, as in the case of some towns, but along with them are factories to support the rapidly growing population. The factories are built first and then the houses for the employes to live in.

Secretary Parker's Report.

Secretary T. B. Parker, of the Farmers' State Alliance, has nearly complete the work of compiling the reports made to him on the reduction of cotton acreage in North Carolina and finds it to be 23 1-2 per cent, as compared with last year, the returns from practically all the counties being on hand. Speaking about the alliance, he said it continues to grow. Your correspondent found that the alliance may be said to no longer exist in Texas, what is known as the Farmers' Union taking its place there, this being a secret fraternal organization. Secretary Parker says that he is informed that this union has 200,000 members in Texas, wheich is the only State in which it exists as yet.

Severe Storm at Mt. Olive.

Wilmington, Special.—A special to the Star from Mount Olive, N. C., says a severe wind, rain and hail storm swept over that section, unroofing buildings and laying crops in waste over a wide area covered by the path of the storm. The power house of the electric plant in the town of Mt. Olive was partially wrecked. In a large elm grove on the outskirts of the town numbers of sparrows killed by the hail stones were found after the storm.

Carpenter Acquitted.

Dallas, Special.—At 5.30 o'clock this afternoon, after having been out one hour and twenty minutes, the jury in the case of the State against Earl Carpenter, O. D. Carpenter and S. S. Campbell, for the murder of A. M. Kale, rendered a verdict of not guilty. The former stood indicted for murder in the first degree, while an indictment for murder in the second degree was lodged against the other two.

German Baptists Gathering.

Bristol, Special.—Delegates are arriving on all trains to attend the National meeting of the German Baptists. Bible and Sunday school institutes are being held, in which church workers from all parts of the United States are participating. The local railway men have been advised of ten special trains that will arrive here the latter part of the present week, including one from the Pacific coast. It is expected that 20,000 persons will be here before the end of the week.

For Systematic Scientific Research

Prof. Pearson, the English scientist, has been considering the suggestion of Prof. Simon Newcomb looking to the systematization of scientific research by organizing investigators into what might be termed battalions. Dr. Pearson says that what science needs at present is to get rid of most of its data and investigators with brains enough to interpret what is left. "At least 50 per cent of the observations made and the data collected," says Prof. Pearson, "is worthless, and no man, however able, could deduce any result from them at all. In engineer's language, we need to 'scrap-heap' about 50 per cent of the products of nineteenth century science."

Put His Will in Rhyme.

"We get some queer wills here," said Deputy Register Stroup of Harrisburg, Pa. "But here is one that beats anything I have ever seen since I have been here."

Mr. Stroup produced a small sheet of paper, which contained:

When my wife's a widow, of me bereft,
She shall inherit all I've left;
And when she's finished her career
It then shall go to my daughter dear.

This document was duly attested as a will and was received for probate. It came from the lower end of the county, and will be the guide in settling an estate.—New York Herald.

It is a fact that when the city man and boy take a vacation from their toil and the city woman and girl from their home duties they generally want to take what Dr. Adler calls an ethical vacation, too. The country people know and feel this and some of their most conscientious people resent it, declares the New York Mail. They object that city people, let loose in the country, do things which they would not do at home. Hatless and coatless, city girls who are careful of their conduct at home sit saucily on the counter of the mountain grocery store and thump their heels against its boards.

It makes all the difference whether your religion is the servant of your business or your business of your religion.

ULCERS FOR THIRTY YEARS

Painful Eruptions From Knees to Feet Seemed Incurable—Cuticura Ends Misery.

Another of those remarkable cures by Cuticura, after doctors and all else had failed, is testified to by Mr. M. C. Moss, of Gainesville, Texas, in the following letter: "For over thirty years I suffered from painful ulcers and an eruption from my knees to feet, and could find neither doctors nor medicine to help me, until I used Cuticura Soap, Ointment and Pills, which cured me in six months. They helped me the very first time I used them, and I am glad to write this so that others suffering as I did may be saved from misery."

Shoe Lacer for Fat People.

Mrs. Elizabeth Falconer of Louisville, Ky., has just perfected an invention which promises to revolutionize the lacing of shoes by fat people. The invention enables men or women to lace their shoes without stooping, and although it was not invented primarily for fat men—there— are no fat women—it will be utilized as much by them as by the aged and infirm, for whose comfort it was brought into the world. The invention is simple. One lace string is permanent in positon, and pulling the top of it laces the shoes. Pulling the bottom string loosens the shoe.

Effective Smoke Consumer.

What is said to have proved an effective smoke consumer has been tried in London. The invention comprises a screen of tubular fire bricks, made of special material built up in the furnace in such a position that all the products of the fire pass through the screen. The latter quickly becomes incandescent, and "flashes" the gases as they pass through, thus preventing the formation of carbon.

Commenting on the effects of the dime novel and the sensational play in increasing crime the Insurance Monitor says that the criminal classes in America are increasing faster than the population and that most of the thefts and burglaries are committed by minors or men in their early 20's.

FEED YOU MONEY

Feed Your Brain, and It Will Feed You Money and Fame.

"Ever since boyhood I have been especially fond of meats, and I am convinced I ate too rapidly, and failed to masticate my food properly.

"The result was that I found myself, a few years ago, afflicted with ailments of the stomach and kidneys, which interfered seriously with my business.

"At last I took the advice of friends and began to eat Grape-Nuts instead of the heavy meats, etc., that had constituted my former diet.

"I found that I was at once benefited by the change, that I was soon relieved from the heart-burn and the indigestion that used to follow my meals, that the pains in my back from my kidney affection had ceased, showing that those organs had been healed, and that my nerves, which used to be unsteady, and my brain, which was slow and lethargic from a heavy diet of meats and greasy foods, had, not in a moment, but gradually, and none the less surely, been restored to normal efficiency. Now every nerve is steady and my brain and thinking faculties are quicker and more acute than for years past.

"After my old style breakfasts I used to suffer during the forenoon from a feeling of weakness which hindered me seriously in my work, but since I have begun to use Grape-Nuts food I can work till dinner time with all ease and comfort." Name given by Postum Co., Battle Creek, Mich.

GOVERNMENT LIGHT.

HISTORIC CHICKAMAUGA PARK ABLAZE WITH ILLUMINATION.

United States System of Lighting Military Post Pronounced Gratifyingly Successful—Six and One-Half Miles of Mains—Sixty-Five Street Lights.

Chickamauga Park, Ga., May 31.—The United States Government has here in operation one of the largest acetylene gas plants in the world. The military post at the entrance of the historical Chickamauga battlefield, where thirty thousand Union and Confederate soldiers were lost in the memorable battle of September 19 and 20, 1863, contains about one hundred buildings, the seventy-five principal ones of which are lighted with acetylene. To accomplish this six and one-half miles of mains and two miles of service pipes are in use, while sixty-five street lamps brilliantly illuminate the avenues of the post.

In 1903 the War Department installed a test acetylene plant at Fort Meyer, Virginia. The results were so gratifying and the superiority of the illuminant so evident that the Government, March 20, 1904, placed the contract for the Chickamauga plant, in which every citizen of the United States should have his pro rata of pride.

But the Government has not confined its acceptance of acetylene to this military post. Since becoming satisfied of the efficiency, superiority and economical advantages of this particular illuminant, the United States has installed a number of plants in Indian schools and other Government institutions.

Acetylene gas is one of the simplest as well as the most perfect of artificial lights. It is made by the contact of water and carbide (a manufactured product for sale at a nominal price), is absolutely safe and gives a beautiful white light soothing to the eyes and nerves. It can be produced anywhere—in the farm home, the village store, the town hall, the church—and is so easily maintained as to be practical for all classes.

It is a matter for national congratulation that in beautifying so historic a spot as Chickamauga, nothing but the best, including the lighting system, has been deemed good enough for the American people.

Train Too Fast for Coyotes.

The recent chase of a wolf by a train on the Cheyenne & Northern railroad north of Cheyenne was discounted near here when engine 1657, hauling a special fast freight, ran down and killed two coyotes. The animals were trotting along on the track over a section of the country that was deep in snow. At the approach of the train the coyotes attempted to jump from the track but the high banks of snow prevented this, so they tried to run away from the iron horse. For over six miles the race continued before the coyotes were run down and killed.—Denver Republican.

Railroad Rate Legislation.

Testifying before the Senate Committee at Washington, Interstate Commerce Commissioner Prouty said in discussing the proposition to give that commission the power to regulate railway rates:

"I think the railways should make their own rates. I think they should be allowed to develop their own business. I have never advocated any law, and I am not now in favor of any law, which would put the rate making power into the hands of any commission or any court. While it may be necessary to do that some time, while that is done in some States at the present time, while it is done in some countries, I am opposed to it. The railway rate is property. It is all the property that the railway has got. The rest of its property is not good for anything unless it can charge a rate. Now it has always seemed to me that when a rate was fixed, if that rate was an unreasonable rate, it deprives the railroad company of its property pro tanto. It is not necessary that you should confiscate the property of a railroad; it is not necessary that you should say that it shall not earn three per cent. or four per cent. When you put in a rate that is inherently unreasonable, you have deprived that company of its rights, of its property, and the Circuit Court of the United States has jurisdiction under the fourteenth amendment to restrain that. I have looked at these cases a great many times, and I can only come to the conclusion that a railroad company is entitled to charge a fair and reasonable rate, and if any order of a commission, if any statute of a State Legislature, takes away that rate, the fourteenth amendment protects the railway company."

INTERESTING LETTER

WRITTEN BY A NOTABLE WOMAN

Mrs. Sarah Kellogg of Denver, Color Bearer of the Woman's Relief Corps, Sends Thanks to Mrs. Pinkham.

The following letter was written by Mrs. Kellogg, of 1628 Lincoln Ave., Denver, Colo., to Mrs. Pinkham, Lynn, Mass.:

Dear Mrs. Pinkham:—

"For five years I was troubled with a tumor, which kept growing, causing me intense agony and great mental depression. I was unable to attend to my house work, and life became a burden to me. I was confined for days to my bed, lost my appetite, my courage and all hope.

"I could not bear to think of an operation, and in my distress I tried every remedy which I thought would be of any use to me, and reading of the value of Lydia E. Pinkham's Vegetable Compound to sick women decided to give it a trial. I felt so discouraged that I had little hope of recovery, and when I began to feel better, after the second week, thought it only meant temporary relief; but to my great surprise I found that I kept gaining, while the tumor lessened in size

"The Compound continued to build up my general health and the tumor seemed to be absorbed, until, in seven months, the tumor was entirely gone and I a well woman. I am so thankful for my recovery that I ask you to publish my letter in newspapers, so other women may know of the wonderful curative powers of Lydia E. Pinkham's Vegetable Compound."

When women are troubled with irregular or painful menstruation, weakness, leucorrhœa, displacement or ulceration of the womb, that bearing-down feeling, inflammation of the ovaries, backache, flatulence, general debility, indigestion and nervous prostration, they should remember there is one tried and true remedy. Lydia E. Pinkham's Vegetable Compound at once removes such trouble.

No other medicine in the world has received such widespread and unqualified endorsement. No other medicine has such a record of cures of female troubles. Refuse to buy any other medicine:

Mrs. Pinkham invites all sick women to write her for advice. She has guided thousands to health. Address, Lynn, Mass.

Health is too valuable to risk in experiments with unknown and untried medicines or methods of treatment. Remember that it is Lydia E. Pinkham's Vegetable Compound that is curing women, and don't allow any druggist to sell you anything else in its place.

ARE YOU SICK?

Let a SAMPLE BOTTLE of CHECKERS HELP YOU to GET WELL!

Perhaps you have the most stubborn and fatal disease the doctors know about.

Perhaps you've suffered untold agony and daily torment.

Perhaps you are unable to look after your daily work, maybe not well enough to give it a fraction of the time it needs.

Perhaps you're discouraged with life—never expect to get back your youthful vigor again—lost your ambition, take no interest in your business, no longer enjoy old pleasures, find home and friends less attractive. The above are the usual penalties of disease suffering.

Perhaps you've tried a dozen doctors and a dozen different medicines. Then given up with disgust. It's a common experience.

Do you expect to stop trying and risk the fatal end? Or are you still open for a positive cure? Your confidence, no doubt, has been shattered before by a dozen trials, but because you have grasped at straws in the past, will you refuse now to try a proven life preserver? Won't you bolster up your faith in human nature and try again? A positive cure depends on your answers.

Dr. Checkers, of Austria, gave his country the famous Checkers formula—this wonderful Medicine to be taken into the stomach, there to be absorbed by the blood—making the people new all over. Checkers is just beginning to be known in the U. S. It has cured thousands, it has cured wherever it has been tried. It is not a drug; it's like nothing you have ever tried—but it will cure you. It checks and stops the ravages of Consumption, it cures Stomach, Liver, Kidney, Nerve and Blood Diseases, Catarrh, Bronchitis, Coughs, La Grippe, Neuralgia, Rheumatism, Heart Disease, Indigestion, Malaria, Chills and Fever, Nervousness, General Debility and all known Female Complaints. We promise sufferers quick relief and a permanent cure. Good druggists have it—also the leading stores. Get a mammoth dollar bottle TODAY, you will forget it tomorrow.

Why Supplies Were Ample.

Thomas F. Somers loves to tell of his early experiences as a drummer. One night he had to stay over in a very small town in the Far South; he confided to the woman who ran the hotel that he was very fond of buttermilk. At supper she brought in a huge jar of it, set it on the table in front of him and said: "Go ahead and drink all you want to. We don't keep no pig."—New York Times.
